- END -

Explanation - This amendment removes language that voids FY 2009 appropriations if certain reports are not received by designated legislative committees. Items 3 and 4 of this amendment alter language to identify the amount included in appropriations for reports to interim legislative committees (\$4,800 total) and the amount the FY 2009 appropriation will be reduced if the reports are not received. Each item referenced in items 3 and 4 of the amendment would read as follows:

Included in ____ Division/Reporting is \$200 general fund each year for a semiannual report to the legislative finance committee, the children, families, health, and human services interim committee, and members of the joint appropriations subcommittee on health and human services for the following:

(1) progress toward the goals presented to the joint appropriations subcommittee on health and human services in the division's final template; and

(2) attainment of measurable objectives as outlined in the division final template presented to the joint appropriations subcommittee on health and human services.

If the reports are not received by the legislative finance committee by December 31, 2007 and June 30, 2008, the fiscal year 2009 general fund appropriation is reduced by \$200.
